

I love the sea

Written & Illustrated By:
Ernestine Giddings

The endless shore

The coral caves

The wind so calm

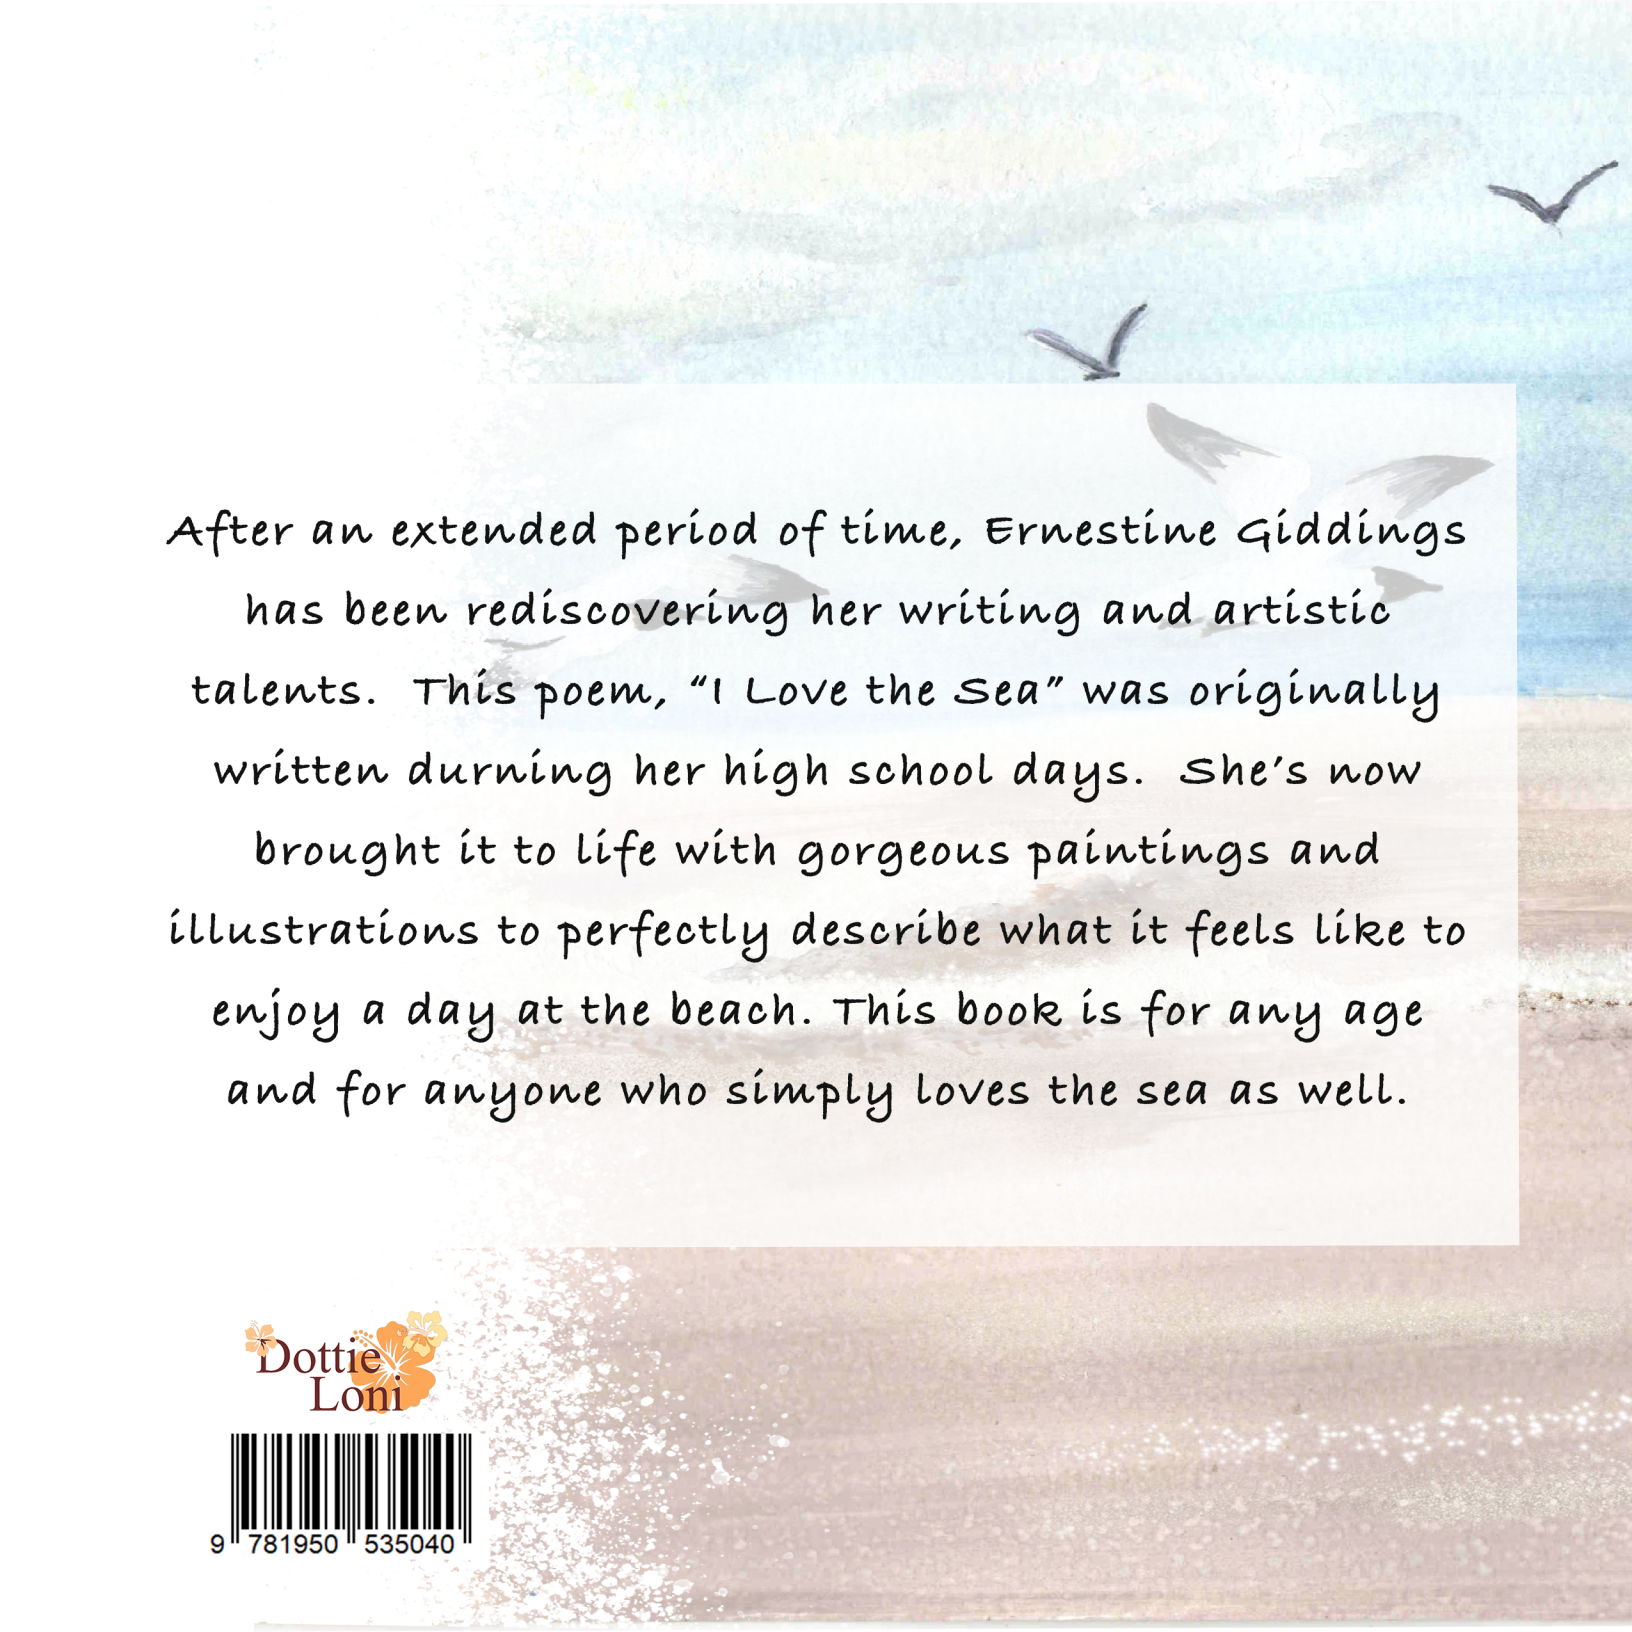

The floating birds

The sandy beach

The salty breeze upon my face

After an extended period of time, Ernestine Giddings has been rediscovering her writing and artistic talents. This poem, "I Love the Sea" was originally written during her high school days. She's now brought it to life with gorgeous paintings and illustrations to perfectly describe what it feels like to enjoy a day at the beach. This book is for any age and for anyone who simply loves the sea as well.
